

Math Virtual Learning

1st Grade Place Value

April 7, 2020

1st Grade Math

Lesson: April 7, 2020

Learning Target:

Students will understand two digit numbers are composed of
1's and 10's

Background

These are new lessons in our place value unit, but we will be building on what was learned in Kindergarten.

- In Kindergarten students learned to compose and decompose numbers from 11 to 19 into sets of tens with additional ones. (K.NBT.A.1)

Warm Up Activities

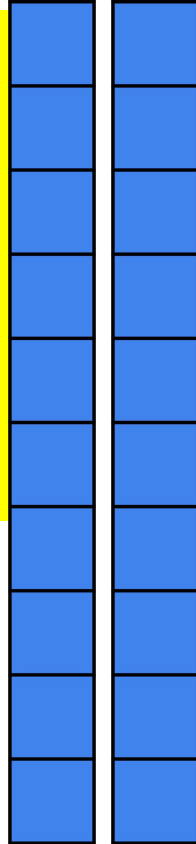

1. [Place Value: Ones and Tens | Math for Grade 2 | Kids Academy](#)
2. [Number Bonds 11-19 | Math Song for Kids | Jack Hartmann](#)

Practice--Round 1

How many tens do you see?

How many ones do you see?

Think back to the place value song--numbers in the teens have a group of ___?

How many tens?

How many ones?

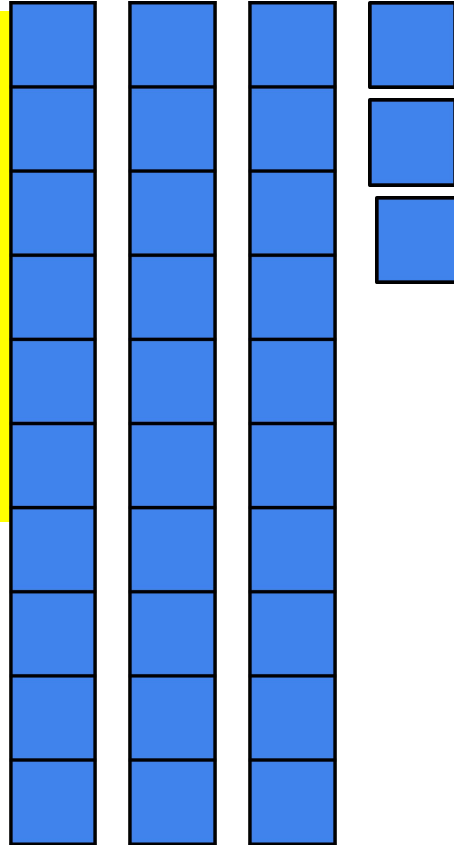

What number does it make when you combine the tens and ones?

Practice--Round 2

How many tens do you see?

How many ones do you see?

Think back to our place value song!

How many tens?

How many ones?

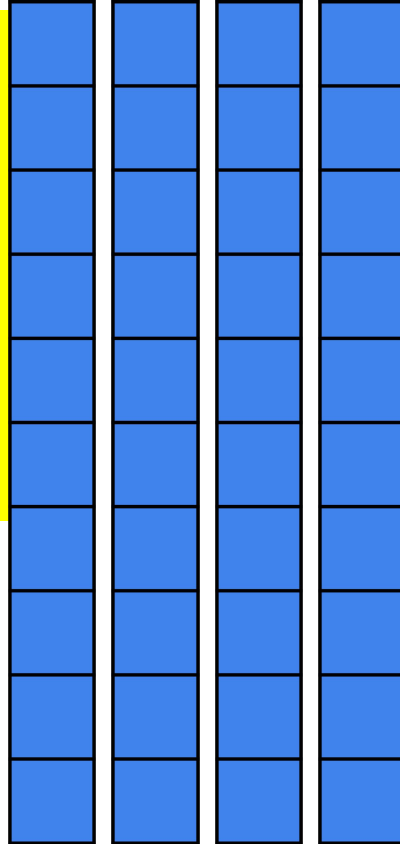

What number does it make when you combine the tens and ones?

Practice--Round 3

How many tens do you see?

How many ones do you see?

Remember, we see two GROUPS of ten!

How many tens?

How many ones?

What number does it make when you combine the tens and ones?
